Professional Expertise

Jason Hodges is the Principal Landscape Architect and Owner of Prairie Workshop LLC, specializing in crafting sustainable public spaces that integrate green infrastructure and native plants.

With a decade of leadership at Texas Tech University System, he oversaw hundreds of campus landscape projects across West Texas, establishing a benchmark for sustainable design. His expertise in marrying pedestrian experience with stormwater management, public art, and water-wise landscaping has resulted in numerous award-winning projects.

Over nearly three decades in the industry, Jason has served a diverse clientele, including state, county, and municipal agencies, corporations, and private individuals, delivering impactful landscapes throughout Texas and New Mexico.

Selected Project Experience

- **Cash Family Ranch Life Learning Center at the National Ranching Heritage Center (2023)**
Indoor and outdoor comprehensive ranch life educational center featuring Hank the Cowdog; designed to host educational events for visitors from all sectors of life. (Lubbock)
- **Texas Tech Jones AT&T Stadium (2001-Current):** Sports Performance Center, Athletic Dining Facility, West Stadium Plaza, Football Training Facility, University Ave. streetscape, South End Zone. (Lubbock)
- **Martin County Convent (2020):** Historic site and event center. Services included campus master plan for the restoration and redevelopment of Marienfield, the site of a historic Carmelite Monastery. (Stanton)
- **Mallet Event Center (2015):** Multi-purpose facility that includes waterwise & native plantings, indoor/outdoor meeting spaces and a grand entry plaza. (Levelland)
- **LHUCA Plaza (2014):** Developed the master plan and design for the art/entertainment space that serves as ground zero for Lubbock's monthly First Friday Art Trail celebration.
- **McPherson Cellars (2008):** Adaptive re-use of an abandoned warehouse. The courtyard design for this urban winery features an oasis vibe with re-circulating fountain, stained concrete, lounging rooms with outdoor furniture, decorative metal panels and rustic overhead trellises.
