### Professional Expertise

Jason Hodges is the Principal Landscape Architect and Owner of Prairie Workshop LLC, specializing in crafting sustainable public spaces that integrate green infrastructure and native plants.

With a decade of leadership at Texas Tech University System, he oversaw hundreds of campus landscape projects across West Texas, establishing a benchmark for sustainable design. His expertise in marrying pedestrian experience with stormwater management, public art, and water-wise landscaping has resulted in numerous award-winning projects.

With nearly three decades in the industry, Jason has served a diverse clientele, including state, county, and municipal agencies, corporations, and private individuals, delivering impactful landscapes throughout Texas and New Mexico.

### Selected Project Experience

**Cash Family Ranch Life Learning Center at the National Ranching Heritage Center:** Outdoor museum exhibit featuring Hank the Cowdog and the fictional ranch brought to life in physical form; designed to host visitors of all ages in an immersive cultural heritage museum that includes interactive ecological elements.

**Jones AT&T Stadium at Texas Tech University:** multiple projects in the stadium complex including Sports Performance Center, Athletic Dining Facility, West Stadium Plaza, Football Training Facility, University Ave. streetscape, Red Raider Plaza at Frazier Alumni Pavilion, and the new South End Zone Game Day Plaza.

**El Intercambio:** Designed central campus stormwater park featuring public art, landscape gardens and pedestrian mall (TTU Health Sciences Center El Paso).

**Trinity River Ecological Restoration:** Lead designer for multiple projects including wetland development, streambank stabilization, erosion control and re-vegetation of a floodplain forest in the City of Arlington.

**LHUCA First Friday Plaza:** Developed the master plan and construction design for the art/entertainment space that serves as ground zero for Lubbock's monthly First Friday Art Trail celebration.

**Jo Ann Cermin Butterfly Garden:** Designer of the pollinator garden and rainwater harvesting pavilion located at the Lubbock Arboretum.
